Project Overview

This project is the only address for a “good life”.

The project offers a fabulous life at the entrance to Istanbul strait where the historic city walls open out to the Bosphorus on the Kazlıçeşme shore; “a good life” where splendor meets comfort with an enchanting view, mixing the past and present.

All the elements of a “good life” come together in this project with an unmatched harmony.

Project Overview

Where historical buildings have been brought back to life with world-class renovation work and where trees hundreds of years old have been kept in place, this project inspires with the life it promises; making possible a life enhancing dreams with its timeless architecture and meticulous design, in which every detail has been thought through.

Beyond being just a view, the sea becomes a part of daily life in this project, a way of life from sport to transport.

With its historic buildings, which have been brought back to life, merging the magical atmosphere of the past with today's comfort, the project blends the historical fabric with the smell of the sea.

It offers within walking distance the possibility of satisfying all needs, from the chic boutiques of exclusive brands and restaurants that offer the first-rate tastes of world cuisine, from an organic market to outstanding restaurants and cafes that are meeting place for the city.

Project Overview

We also does not forget to keep children happy in this project, with creative workshops, fun parks and play areas, a rich program of activities that supports personal development, sports activities ranging from rowing to swimming and sport club.

Italy's most prestigious brand FENDI Casa has come to Istanbul for the first time, after Miami and Dubai, and only in this project.

In this project, we believe that only luxury, which adds value to life, makes people happy and life easier is true luxury, and it is signing the name of "luxury" on this "good life" in cooperation with FENDI Casa.

Impressed by the unique story of this project, FENDI Casa adds comfort and pleasure to the lives of people who seek the good life with an understanding of "luxury that makes you happy".

Project Overview

The stylishness of FENDI Casa is imbued in every detail from the lobby of the project to the share spaces, from the cupboards to the floors, from the furniture to the fittings.

FENDI Casa has designed homes for this project which display elegance from the first step.

Creating for this project very special, "tailor-made" design solutions, in harmony with the project's spirit, FENDI Casa adds value to the project, which has the quality of a work which will be passed on from generation to generation.

The magnificent sea view and timeless architecture of the project meets with the trendsetting designs of FENDI Casa to create modern, chic and comfortable living areas.

Project Overview

The captivating synergy of elegance and a sea view. FENDI Casa is designing the shared areas, lobbies and every detail of the apartments in the FENDI Casa block, which is endowed with the project's panoramic sea view.

Highlighting Italian elegance and quality in every detail, FENDI Casa is creating Istanbul's chicest homes.

The project reflects the top quality and luxury. Natural stones create spacious and practical spaces. The design understanding, which puts ease of use,

stylishness, luxury and naturalness in the forefront, offers an exclusive comfort in wet areas.

Project Site

The project located on the European side of Istanbul, in Zeytinburnu district, on the shore of the Marmara Sea, just outside the walls of the ancient city.

The project located at the very intersection of all new transportation systems, road, sea and rail systems of Istanbul right beside the Historical Peninsula.

In this project, the sea will become part of your daily life. You can reach the marina with only one minute's walk from your home over the footbridge directly connecting the project to the shore.

It is located at the crossroads of all transport networks, road, sea and rail, Istanbul's new coastal district makes travel easy in every sense.

The time that you would otherwise spend in traffic is spent with your loved ones, thanks to this project's location in the heart of the city.
