Project Overview

A government project under the supervision of Emlak Konut and the guarantee of the Turkish government, located in Bahcesehir, one of the most important areas where new urban and residential projects are being established.

The project consists of 6 buildings and contains 680 housing units and 26 shops, of 1+1, 2+1, 3+1 and 4+1 types, with large areas ranging from 72 square meters to 233 square meters.

Project Overview

The project includes social facilities, playgrounds and shops to meet all your needs.

Your quality of life will be greatly improved with the amenities of this project, where you will be able to enjoy nature and easy navigation.

In a short time, you will witness a return on your investment thanks to the attractive location of the project close to all parts of the city.

This wonderful project offers easy access to anywhere in the city, it is located in a quiet family neighborhood.

The project has a closed car park to protect your car from weather factors, and it consists of two floors.

Project Overview

There are 24-hour front desks, concierge and personal services waiting for you in every building.

The project includes an indoor swimming pool, gym, sauna, steam room, in addition to 65% of the total area of the project is green spaces and water bodies that include designated walking paths and special places to sit.

The serene environment of this project will inspire you to rediscover the pleasures of life. Evergreen landscapes where you can spend some quiet times and pleasant moments.

The project is ready to move in.

The project offers flexible payment plans with a down payment ranging from 40% to 50% and convenient monthly installments for 9 years.

Project Site

The project is located on the European side of Istanbul, in Bahcesehir area, the developing face of Istanbul and the new attraction for real estate investments.

Bahcesehir area is famous for its rapid urban development and growing projects. It is also characterized by its picturesque nature, parks and green spaces.

The project is located in Bahcekent district, the developing face of Istanbul and the new attraction for investments.

This project draws attention with its proximity to Mecidiyekoy- Mahmutbey- Esenyurt metro which is still under construction, which will reduce the distance between Mecidiyekoy and Esenyurt to 26 minutes when completed.

The project is located near the highway, Ataturk International Airport and Istanbul Third Airport.

Project Site

The project is surrounded by many Turkish public schools suitable for all levels of education from kindergarten to high school.

You will feel peace and security in every corner of this district which is close to the TEM main road, the road connected to the third airport and Yavuz Sultan Selim Bridge.
