Project Overview

Project area

9.000^{M²}

The project contains 31 villas with net area not less than 300 Sqm distributed over 4 floors with at least 100 Sqm as a garden.

We used a high finishing quality with external heating insulation and double-glazed windows.

Under floor heating system with a chimney in the salon, possibility of adding an elevator inside the villa.

The project includes a shared swimming pool with an area of 120 Sqm with children playground.

24-hour security system, with 40 Sqm as a private garage for each villa.

Project Overview

You will watch the calmness of the sea from your window in the evenings, and the blue of the sea where the sun rises in the morning.

It has been designed to respond to the desire of those who want to get away from the chaos and traffic of the city, as well as to meet the increasing comfort needs of modern people.

The project was designed to be a prestigious living center by combining high-level comfort, quality and modern architecture.

This panoramic view is waiting for you to be your best friends along with your new neighbors green and blue.

With a long years of industry experience, they designed this villa project, which consists of 32 private villas built on a 9000 Sqm land.

Project Overview

The project includes a shared swimming pool with an area of 120 Sqm with children playground.

24-hour security system, with 40 Sqm as a private garage for each villa.

The project built by a well-known company with 28 years of experience, which progress with its unique huge potential to realize your dreams and the innovative ability that comes after it, and work to create better living spaces in every project. This villa project, offers a new life to those who want to rewrite their own story. The most unique of the blue tones in the sky and the colorful green tones of nature come together in this project.

Project Site

This special project located on the line where Gurpinar, one of the undiscovered virgin spots of Beylikduzu, one of the most distinguished districts of Istanbul, combines green and blue.

Our project is close to many vital facilities and its far from the hustle of the city.

This project represents the new face of Beylikduzu. It is an alternative life project to life styles. Now we present you the best quality project of the district . With its location, common areas and features that make your life easier. The project is easily accessible by car and public transportations.

The project promises a comfortable life for its residents that it is close to main roads, E5 and TEM Highway bridges, and airports, and it is easily accessible by public transportation.

The special location of the project near to Istanbul West Marina and the coast of the Marmara Sea.

Beylikduzu is the modern center of Istanbul, where residential and commercial complexes and towers are spread.
