Project

Overview

A residential and investment project that includes various options for residential and commercial units with areas ranging from 0+1, 1+1, and 2+1.

Shops are available for sale and also available for rent.

In addition, shops inside the mall are now available for sale.

Our project was built with the concept of housing/office at the same time.

Our project includes two buildings on the first four floors, it will be a commercial mall, one of the buildings is available for investment to be a hotel and the other building is suitable for housing or working as an office.

There are spacious shops in our project, and apartments with balconies are also available.

What distinguishes our project is that it has sea, lake, and city views, as there are no buildings close to the project.

The project will be delivered in June next year 2020.

Project Site

It is located on one of the most important highways in Istanbul at all (E5) and at the same time near the metrobus which is the most important public transportation in Istanbul. The project is centrally located and surrounded by universities and hospitals and includes many shops to meet all your needs. The unique and distinctive location of the project in Beylikduzu district, near to the E5 motorway which makes it lively and active.
